## SUMMARY

---

Frontend Developer with 3 years of experience translating UI/UX designs into responsive, interactive, and cross-browser web interfaces using HTML5, CSS3, JavaScript, and React.js. Proven track record of building and optimizing front-end architecture, integrating REST APIs, and collaborating with design and backend teams in agile environments. Adept at delivering production-ready, mobile-first web applications with clean, maintainable code.

## TECHNICAL SKILLS

---

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, SASS, jQuery

**Responsive Design:** Mobile-first design, cross-browser compatibility, Flexbox, CSS Grid

**Frameworks & Libraries:** React.js, Redux, Context API, React Router, TypeScript

**Backend Collaboration:** Node.js, Express.js, REST API integration (Axios), MongoDB

**Version Control & Tooling:** Git, GitHub, Vite, Webpack, Vercel, Render

**Design & Prototyping:** Figma, Illustrator, component-driven UI development

**AI-Assisted Development:** Claude, ChatGPT, Cursor

## EXPERIENCE

---

### Software Engineer – Frontend Developer

April 2023 – Present

*CABCS Group India Technologies Pvt Ltd*

*Puducherry, India*

- Translated Figma UI/UX designs into responsive, interactive, and production-ready web interfaces using HTML5, CSS3, JavaScript, and React.js, ensuring cross-browser and cross-platform compatibility across desktop and mobile.
- Led frontend architecture migration from a legacy HTML/CSS/JS codebase to a modular React.js application, improving maintainability, scalability, and long-term code health.
- Integrated frontend with REST APIs and backend services using Axios, handling authentication flows, data fetching, loading states, and error handling in live production environments.
- Collaborated daily with backend engineers and design teams in an agile workflow to align technical implementation with product requirements and design vision.
- Debugged, profiled, and optimized frontend performance by refining component structure and DOM logic, resulting in measurably faster page interactions and improved user experience.
- Introduced SASS for scalable stylesheet architecture and applied secure coding standards and best practices throughout the development lifecycle.
- Leveraged AI tools (Claude, ChatGPT, Cursor) to accelerate development workflows, automate repetitive coding tasks, and validate output quality prior to deployment.

### Student Intern – Frontend Developer

October 2022 – April 2023

*KodNest*

*Bengaluru, India*

- Built multiple responsive web projects using HTML, CSS, Bootstrap, and JavaScript with cross-browser compatibility and mobile-first design principles.
- Implemented interactive UI features using DOM manipulation and event handling; developed reusable, scalable UI components for consistent user experiences.

## PROJECTS

---

### Interview Prep With AI | *React.js, Redux, Node.js, Express.js, MongoDB, JWT, REST APIs*

- Designed and developed a full-stack web platform with a modular React frontend integrated with REST APIs via Axios; implemented JWT-based protected routes, session management, and dynamic question generation.
- Handled API error states, loading feedback, and dynamic UI updates to deliver a smooth, production-quality user experience across all devices and screen sizes.

### CABCS Company Website | *React.js, Tailwind CSS*

- Led complete UI redesign and frontend migration for a corporate web presence, delivering a fully responsive, cross-browser React codebase following clean code and component reuse principles.

### Portfolio Website | *React.js, Tailwind CSS, Figma*

- Designed and developed a fully responsive, cross-browser portfolio using React.js and Tailwind CSS with UI animations; prototyped in Figma and implemented with smooth scrolling and mobile-first design.

## EDUCATION

---

**Sri Venkateswara College of Engineering**

*Bachelor of Technology – Computer Science*

Tirupati, India

*June 2018 – July 2022*

## CERTIFICATIONS

---

**Front-End Domination** – Sheriyans Coding School (React.js, UI Design, HTML, CSS, JavaScript, GSAP)

**Web Developer Program** – KodNest (HTML, CSS, JavaScript, Frontend Development)

**Responsive Web Design** – FreeCodeCamp (HTML, CSS, Flexbox, Grid, Mobile-First Design)
